

Beacon by ThirdPartyTrust

THE EASY WAY OF SHARING YOUR VENDOR SECURITY PROFILE

Beacon by ThirdPartyTrust is a single, online, and centralized security profile that consolidates all your questionnaires, certifications, and attestations. Answer them once, and easily share their latest versions with your customers on every security review.

Build your Beacon profile in three simple steps:

1 ASSURANCE PROGRAMS
Upload all your insurances, external audits or assessments, and certifications.

2 QUESTIONNAIRES
Follow up by adding any industry standard or custom questionnaires.

3 SCANS
Get insights on your security ratings by checking the integrated data feeds.

PRO TIPS

+
Include any additional custom documentation, such as an NDA.

✓
Select only the information you want to share with each customer.
